Correspondence:

1. Copy of BOS Minutes from May 7 and May 21, 2019.
2. Citizens Bank end of May Balance for Conservation Fund \$17,810.35. Monthly Interest was \$0.15.
3. Conservation Budget end of May 2019 expenditures \$55.00
4. NHPDIP Statement for the end of May Balance of \$2,049.02. Interest received \$4.07.
5. Revised Invoice from Jones & Beach Engineers for progress work on the Powwow River Bank Restoration Project. Their cost to date is \$682.00. MM&2 to Pay from Conservation Fund. Passed
6. May 17 Letter from NHDES notice that they have received and accepted the Wetlands Permit Application from the 213 Haverhill Road property.
7. Email Report from Greg Jordan of the Ash Tree Survey. Dennis will give a copy to the Cemetery Committee. We will try to get a list of companies that do treatment and request a quote.
8. Spring 2019 Newsletter from NHDES Drinking Water & Groundwater Bureau.

OLD BUSINESS:

1. Discuss the May 4th Spring Workshop. We may do some different notices next year.
2. Emerald Ash Borer – Actions, see #7 above
3. Milfoil Survey: DASH Divers will be removing Milfoil soon.

NEW BUSINESS:

1. Litter Pick-up scheduled for Saturday June 22, 2019 at 8:00 AM was cancelled as there appears to be not much to pick up.

DISCUSSION:

1. Vicki presented suggested information that may be put on the EK Conservation Web Site. It is important to update the current members. Approved minutes can be posted. Information on Emerald Ash Borer for landowners to consider.
2. The Kingston Conservation Commission has established a Pollinator Pathway Program to support homeowners to create a habitat for native Pollinators (bees, butterflies, moths, wasps, other insects, birds & bats). Pollinators in agriculture are responsible for pollinating much of the world's food and fiber crops. The East Kingston Conservation Commission has agreed to join that effort.

Next meeting of the Conservation Commission is Scheduled for

July 8, 2019 at 5:00 PM

Respectfully submitted;

Time Adjourned: 6:32 PM
